

Down Syndrome Association Of Greater St. Louis Hospital Packets

The Down Syndrome Association of Greater St. Louis has created a packet of information for new parents of a baby with Down syndrome. The packets contains a letter to new parents, information on nursing, what to do next, how to share the news with family and friends, early intervention, internet resources, pamphlets from the Down Syndrome Association, the Down Syndrome Center, and the National Down Syndrome Congress.

It is our goal to get this information into the hands of new parents as soon as possible. Packets can be kept in OB, nursery, social work or all of these areas. Healthcare professionals can help by distributing the packets to new families and referring them to our organization.

If you do not see your hospital on this list, please **contact our office at (314)961-2504**. These packets of information are provided free of charge.
